

Education

#	Problem Statement	Remarks
1	<p>To educate citizens regarding the activities of Municipal School Board</p> <p>Municipal School Board runs over 250 schools in 7 different mediums. To help citizen identify and choose the school for their ward, it is required to make available various school related information like address, medium of education, no. of classes and intake, details of facility (playground, computer lab, science lab, library, etc.), faculty information, etc.</p>	<p>Data required</p> <ul style="list-style-type: none"> - Name, address and locations of schools - Medium of education - Faculty profile - Details of facility available - Fee structure - Student intake - Historic results and student performances
2	<p>App for the parents</p> <p>There should be an app that helps the parents know their child's school attendance, results, exam schedule, special announcement, etc.</p> <p>Moreover, it would also be helpful to provide the informative details with regards to the result of the student, student attendance, teacher's attendance, etc.</p>	<ul style="list-style-type: none"> - Student details with daily attendance, marks, etc. - Exam, holiday, event schedule
